

Neurozentrum

Advanced nerve ultrasound teaching course: rare neuromuscular disorders

Friday, 7 November 2025, 08.00 – 17.00 Uhr
LUKS Haus 10, Auditorium

Dear colleagues

We welcome all interested neurologists with experience in nerve ultrasound to participate in the course. Emphasis is on practical teaching lessons studying patients with rare acquired and hereditary neuromuscular disorders.

The number of participants is limited in order to ensure a high learning effect (4-5 participants per unit and teacher).

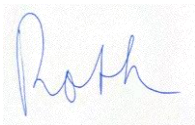

We are very much looking forward to meeting you in the cantonal hospital of Lucerne!
