14th Symposium on Behavioral Neurology
Lucerne, 14th May 2027

herzlich, kompetent, vernetzt

Editorial

Dear colleagues,

We are delighted to invite you to the 14th Symposium on Behavioral Neurology, taking place on May 14, 2027, in Lucerne, Switzerland, in collaboration with the Lucerne University Teaching and Research Hospital.

This year's meeting will focus on the cognitive and behavioral manifestations of neuromuscular diseases. The program brings together leading clinicians and researchers to discuss emerging concepts, challenging clinical presentations, and scientific advances.

The symposium is designed for healthcare professionals involved in the diagnosis and management of neurological and cognitive disorders, including neurologists, psychiatrists, geriatricians, clinical neuropsychologists, physiotherapists, and other allied health professionals.

Beyond the scientific program, the meeting will provide ample opportunity for exchange, discussion, and networking with colleagues from different disciplines and institutions.

We warmly invite you to join us in Lucerne for a stimulating day of science, clinical exchange, and collegial interaction. We very much look forward to welcoming you to the symposium.

With kind regards,

Prof. Dr. med. Stephan Bohlhalter
Chair Neurocenter
Luzerner Kantonsspital

Prof. Dr. med. Georg Kägi
Head of the Center for Parkinson's Disease and Movement Disorders
Inselspital

Prof. Dr. med. Einar Wilder-Smith
Consultant
Neurocenter
Luzerner Kantonsspital
